COMMERCIAL INFORMATION:

The Q-connect Magnetic Wireless Power Bank has a battery with a capacity of 10.000mAh. Integrated powerful N52 magnets ensure precise alignment on compatible devices and support stable wireless charging performance during everyday use. Charge your smartphone wirelessly with up to 15W or use the USB-C® Power Delivery port for fast wired charging (20W). When two devices are used simultaneously, output power is distributed to 5W wireless and 10W USB-C®. The integrated LED indicators provide a clear overview of battery status and charging activity. A green LED indicates active fast charging, while a blue LED shows wireless charging status. Foreign Object Detection (FOD) enhances safety by detecting interference and preventing improper wireless charging. With a battery capacity of 10,000mAh (38.5Wh), the power bank fits easily into your pocket or bag.
