

MAGNETIC FRAME WITH ADHESIVE BACK, A4 – BLACK

KF22366

DESCRIPTION SHORT:	Magnetic frame with adhesive back for A4, black - polybag of 2
PRODUCT LENGHT:	32
PRODUCT WIDTH:	24
PRODUCT HEIGHT:	0.2
COMMERCIAL INFORMATION:	The self adhesive foil is repositionable but NOT NON-Permanent like a post-it note. This means, that depending on the conditions of the surface, you will be able to reposition for a while, but eventually the glue will harden up. On completely flat surfaces (like glass, metal etc.) it will not do any damage, except for a small risk of glue spots left behind to wash of afterwards. But on wooden surfaces like desks, doors, etc. where paint tends to be porous unless it is hard lacquered, we will not recommend to place the pockets.
PRODUCT WEIGHT:	0.07
MADE IN:	Denmark
